

PRO-ADVANTAGE BUILDINGS

Accu-Steel Pro-Advantage Building

INTEGRITY BUILDINGS

Accu-Steel Integrity Building

- The large version of our Advantage building, used in industrial and commercial applications
- Cost effective design for buildings requiring more width and more interior clearance
- The natural light and airflow provide a more consistent working environment
- The thermal neutral, translucent cover prevents condensation from collecting and dripping inside the building
- Keder cover system allows installation on an uneven slope or existing apron
- Individual bay keder cover system is easier to handle and maintain
- All buildings are engineered to meet IBC 2012 guidelines
- Keder covers do not require ratchets to ensure proper roof fabric tension, resulting in longer cover life
- Integrity buildings have a more traditional profile for more aesthetically pleasing appearance
- Higher sidewall height allows easier large equipment operation throughout the barrier-free interior
- Hot-dipped galvanized steel frame resists corrosion and rust
- Flexible designs accommodate existing site restrictions including previously constructed pads

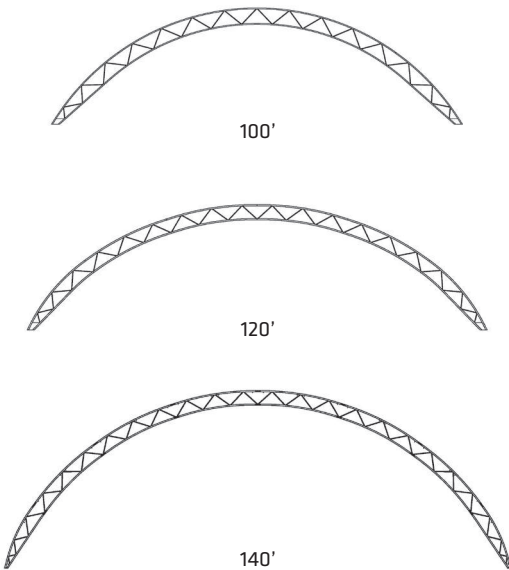

Long-lasting Strong Construction

- Hot-dipped galvanized frame
- HL-13 fabric sheds water and is self-cleaning
- Cover does not crack or peel

Designed for All Industries

- Agricultural
- Mining
- Municipalities
- Recreational
- Equestrian
- Military
- Aviation
- Marine

Accu Steel Pro-Advantage & Integrity Building Profiles

All Pro-Advantage buildings are engineered with hybrid fabric covers or Accu-Keder individual bay covers. The building solutions here employ various foundation options. Accu-Steel buildings are designed and manufactured to accommodate your site's specific conditions.

Foundation Options

- I beams
- Cast in place concrete
- Concrete blocks
- T-panels
- L-Panels
- Tie-walls
- Shipping Containers
- Helicle
- Jersey barriers

Same High Quality Building

- More height, more clearance
- More width, more space
- Increased storage, greater capacity
- 20-year Warranty, longer life
